Technical Expertise

Product: XCode, Apple Scripts, Shell Scripts, Source Tree, Github, Adobe experience Manager, Figma, Confluence, JIRA
Operating Systems: Mac OS X, Windows
Other Apps: MS-Office, Pages, Packages

Work History

Company: Atos Syntel
Role: Senior Consultant
Duration: Oct 2022– Present

Company: Wipro Technologies
Role: Senior Software Engineer
Duration: June 2018– Oct 2022

Company: Hcl Technologies
Role: Senior Software Engineer
Duration: April 2nd2015 – June 2018

Company: It Sculptors Business Systems
Role: iOS Application Engineer
Duration: March 12th2014 –March 23rd, 2015

Company: Creative Thoughts Systech India Pvt Ltd.
Role: iOS Application Engineer
Duration: December 2012 – March 2014

Last Recent Project Details

Title : Kaiser Permanente (Pharmacy)
Duration : 1 years 3 months
Team Size : 10 Members
Environment: iOS
Client : Kaiser Permanente

The Kaiser Permanente app gives you a simple, secure way to manage your health — all in one place.

Responsibilities:

- ✦ Involved in Development of the app.
- ✦ Code Review of Team management, Git Management.
- ✦ Analysis, Improvement recommendation to client for any changes required.
- ✦ Bug fixing, Scrum Testing.

Title : CUSA (Cisco Unified Setup Assistant)
Duration : 2 years
Team Size : 2
Environment: macOS App
Client : CISCO

Cisco Unified Setup Assistant (CUSA) for Mac dramatically simplifies Cisco computer setup by consolidating and automating a manual process of Managing Cisco enrolled Devices.

Responsibilities:

- ✦ Involved in Development of the app from Scratch.
- ✦ Project management and handing client directly through 1-1 communication
- ✦ Analysis, Improvement recommendation to client for any changes required.
- ✦ Bug fixing Testing in Intel and M1 based macs

Title : On Track Health Score
Duration : 2 years
Team Size : 2
Environment: macOS Terminal Based Application
Client : CISCO

OnTrack Health Score is a Terminal based application which runs as root in the background to collect all necessary Health information of User Cisco devices. The Apple Log feature helps to log all data from a user's mac and share the information to IT team. It keeps your device on check with all Certificate information like Cisco Trusted Device information, Duo Device Health status, Encryption status

Responsibilities:

- ✦ Involved in Development of the app from Scratch.
- ✦ Project management and handing client directly through 1-1 communication
- ✦ Analysis, Improvement recommendation to client for any changes required.
- ✦ Bug fixing Testing in Intel and M1 based macs

Title : ISE Remediation
Duration : 6 Months
Team Size : 2
Environment : macOS App
Client : CISCO

ISE Remediation is a mac App developed for the purpose of Fixing Cisco Security standards for Cisco provided mac. It installs all required Certificates to manage the device

Responsibilities:

- ✦ Involved in Development of the app from Scratch.
- ✦ Project management and handing client directly thought 1-1 communication
- ✦ Analysis, Improvement recommendation to client for any changes required.
- ✦ Bug fixing Testing in Intel and M1 based macs

Title : Grundfos (Go Remote)

Duration : 12 Months

Team Size : 10

Environment: iPhone/iPad

Client : Grundfos

Appstore Link : <https://itunes.apple.com/in/app/grundfos-go-remote/id524685121?mt=8>

Grundfos GO is a comprehensive platform for remote product control, product selection and product information. It offers intuitive, handheld assistance and access to Grundfos online tools, and it saves valuable time for reporting and data collection.

Responsibilities:

- ✦ Involved in Development of app.
- ✦ Manage and develop new stories.
- ✦ Conversation of bit data coming from pump.
- ✦ Worked on Different UI elements.

Academic Credentials

- ✦ **Master of Computer Applications**, Vel Tech MultitechDr.RangarajanDr.Sakunthala Engineering College, Chennai.
- ✦ **Bachelor of Computer Applications**, Vel Sri RangaSanku College of Arts and Science
